# PLEASE READ CAREFULLY

## GENERAL INFORMATION

**SHIPPING SEASON**—Our shipping season begins about October 25th and continues until late spring. Where planting conditions are favorable, and if customers request, we can make shipments in mid-winter.

**PLANTING INSTRUCTIONS**—Planting instructions are given on the back of a shipping tag attached to every box or bale, also on the back of your invoice. **BE SURE TO FOLLOW THEM.**

Most failures and complaints are caused by improper planting and lack of proper care for first 30 days after planting. **Do it right** and have successful plantings.

**WE PAY FREIGHT CHARGES** (except on Evergreens, Shade trees and other items as specified in our price list) to any shipping point within the State of Washington on shipments that weigh 100 pounds or over. All shipments to points outside the State are sold f.o.b. nursery, freight or express charges paid by the purchaser. On small shipments of stock under \$10.00 that can be sent by parcel post (mail) add 15% to cost of order to help pay cost of postage and packing. Minimum charge 25 cents. It is impossible to ship shade trees, evergreens or bulky supplies by parcel post.

## PRICES SUBJECT TO CHANGE WITHOUT NOTICE

**SALES TAX**—If you live in the State of Washington, add 3 per cent Sales Tax on all Flowering Shrubs, Roses, Evergreens, Shade Trees, or other Landscape Material. No tax on Fruit Trees.

## NUMBER OF TREES OR PLANTS REQUIRED PER ACRE — HOW TO ESTIMATE

**Rule**—Divide 43,560 (the number of square feet in an acre) by the number of square feet for each plant. The result is the number of trees or plants required for an acre.

**Example** (Square system)—Trees 20 by 25 feet apart: Multiply 20 by 25, equals 500 square feet; 43,560 divided by 500, equals 87 trees per acre.

If trees are planted on the Triangular system, 15 per cent more than for the Square system will be required.

**Strawberries**—Field culture: 1 to 1½ by 2½ to 3½ feet. Garden culture: 1 to 2 feet.

ROYAL ANNE CHERRIES

### We Gather and Process Our Own Cherry Seed from Trees Certified to be Virus Free

Under the supervision of our own trained crew as well as state and federal inspectors, these seedlings are grown and rigidly culled so that only the best are kept on which to bud the named varieties. Budwood is taken only from inspected trees of proven merit and budded into these seedlings. These named varieties are grown another season with the same rigid inspection. After digging, the trees again are closely inspected for any irregularities. The trees you buy are the ones which have met and passed all these requirements.

## NECTARINES

NECTARINES

(For Prices, See Page 1)

The tree of the Nectarine to all appearances can be called a peach tree. In growth, habit, and soils required it is similar to the peach. The fruit differs from the peach in that the skin is smooth, and the rich, aromatic flesh has a flavor all its own. The Nectarine is an exceedingly delicious dessert fruit.

**Boston Red**—Large size — deep yellow with bright blush, sweet.

**Quetta** — Large, yellow green, rich delightful aroma, excellent quality.

**Sure Crop, F**—New. From New Zealand. Firm flesh, large, pleasing flavor, freestone. White skin with attractive red coloring.

## QUINCES

(For Prices, See Page 1)

**Orange** — Large, round, bright yellow, an old favorite, finest quality.

**Pineapple** — Very large, apple-shaped, flavor resembles pineapple. Delightfully fragrant when fresh and delicious when cooked.

**WILDER MEDAL**  
 The highest award  
 in horticulture—  
 awarded to the  
 Richared Delicious  
 Apple.

The only  
 Wilder Medal  
 ever awarded in the  
 Pacific Northwest.

*Announcing and Introducing:*

## ROYAL RED DELICIOUS APPLE

(Trade Mark Registered—Plant Pat. applied for)

*A worthy son of Richared; the new early coloring Red Delicious. It has all the good qualities of Richared. The same Brilliant solid Red Color (not the dark red of some of the other Red Delicious). It colors two weeks earlier. Never buckskin color caused from too much sunshine at time of coloring. This earlier color permits marketing before other Red Delicious, at a time when the public is clamoring for a good apple. Royal Red is the answer, lots of brilliant all red color. An excellent keeper, crisp, and juicy. Supply very limited.*
